

PhD students and Postdocs'
Project review and work in progress

23rd January 2015
Auditorium, building 52

.....

8h30 – Welcome

9h00 – **Roger Le Grand**: Introduction

Session 1:

Moderators: Caroline Pereira Bittencourt Passaes & Romain Marlin

9h15 – **Salma Jaafoura** - PhD, year 3 (supervisor: Y Taoufik) "Progressive contraction of the latent HIV reservoir around a core of less-differentiated CD4⁺ memory T Cells"

9h45 – **Kuan Abdoulaye Traoré** - PhD, year 3 (supervisor: P. Roques) "Seroprevalence and molecular epidemiology of hepatitis E virus in Burkina Faso"

10h15 – Coffee break

Session 2: Mucosal transmission of HIV / SIV

Moderators: Nicolas Huot & Nicolas Noel

10h30 – **Romain Marlin** - postdoc, year 1 (supervisor: E. Menu) "The immune cell populations in the female reproductive tract of unvaccinated or MVA-HIV vaccinated macaques"

11h00 – **Mariangela Cavarelli** - postdoc, year 2 (supervisor: G. Scarlatti / R. Le Grand) "Transmission of seminal SIV across the colorectal mucosa"

Session 3: Autoimmunity

11h30 – **Gaétane Nocturne** - PhD, year 3 (supervisor: X. Mariette) "Lymphoma and auto-immunity"

12h00 – Discussion

12h15 – Lunch

Session 4: Pathogenesis and control of HIV / SIV infection

Moderators: Jamila Younes & David Pejoski

14h00 – **Adela Taramu** - PhD, year 1 (supervisor: C. Verstuyft) “Blood–brain barrier and drug transporters”

14h30 – **Nicolas Noel** - PhD, year 3 (supervisor: O. Lambotte) “Inflammation and immune activation in HIV controllers”

15h00 – **Caroline Pereira Bittencourt Passaes** - postdoc year 3 (supervisor: B. Vaslin) “Studying natural control of SIV infection in cynomolgus macaques”

15h30 – **Nicolas Huot** - postdoc year 1 (supervisor: M. Müller-Trutwin) “Induction of viral control in lymph nodes: role of NK cells”

16h00 – Coffee break

Session 5: Mechanisms of responses to vaccines

Moderator: Mariangela Cavarelli & Salma Jaafoura

16h15 – **Pierre Rosenbaum** - PhD, year 3 (supervisor : F. Martinon) “Early steps of immune responses to MVA vaccination”

16h45 – **David Pejoski** - postdoc, year 2 (supervisor: A.-S. Beignon) “Comparison of primary and secondary responses after prime/boost immunization of macaques with MVA”

17h15 – **Jamila Younes** - postdoc year 3 (supervisor: A. Cosma) “Study of the innate immune response induced by yellow fever vaccine”

17h45 – Discussion

18h00 – End of the meeting
