**“ImVA PhD students and Postdocs
project review and work in progress”**

20th January 2017
Salle Bourneville/KB

.....

08h30 – Welcome

08h45 – **Roger Le Grand**: Introduction

.....

Chairman : Dr F. Ducancel

Session 1: Pathogenesis, reservoirs, transmission and molecular responses during HIV / SIV infection

Moderators: Romain Marlin & Mariangela Cavarelli

09h00 – DAMOUCHE Abderaouf (KB/O. Lambotte)
« Characterization of adipose tissue CD4 T cells during chronic HIV infection »

09h25 – Salma JAAFOURA (KB/Y. Taoufik)
« Trcm as reservoir of HIV »

09h50 – ALAOUI Lamine (KB/B. Favier)
« Dynamic of LILRB2 inhibitory receptor on myeloid dendritic cells during SIV/HIV infection »

10h15 – Fahd BENJELLOUN (FAR/I. Pasteur/E. Menu)
"Toll-Like Receptor activation modulates inflammation and HIV-1 infection in the female reproductive tract (FEMINIVI Study)"

.....

10h40 – Coffee break

.....

11h00 – SUPHAPHIPHAT Karunasinee (CEA/M. Cavarelli)
« Antibody-mediated protection against cell-associated transmission of simian human immunodeficiency virus (SHIV162P3) »

.....
11h30 – Discussion/Photographie de groupe
.....

12h00 – Lunch
.....

Session 2: Mechanisms of responses to vaccines and inflammation

Moderators: Ernesto Marcos Lopez & Samuel Bitoun

13h15 – Hadjer ABDELOUAHAB (CEA/A-S. Beignon)
« Dynamic of the memory T cell response after vaccination »

13h40 – RODRIGUEZ-POZO André (CEA/A-S. Beignon)
« Characterization of vaccine induced memory B cell response»

14h05 – ABDOH Maissa (KB/Y. Taoufik)
« TFH and CD8 memory »

14h30 – MARLIN Romain (IP/E. Menu)
“ Seminal plasma exposures strengthen vaccine responses in the female reproductive tract mucosae »

.....
14h55/15h10 – Coffee break
.....

Session 3: Autoimmunity, imaging, cytometry, bioinformatics, cohort

Moderators: Fahd Benjelloun & Nidhal Kahlaoui

15h15 – BITOUN Samuel (KB/X. Mariette)

« A macaque model of rheumatoid arthritis by immunization with citrullinated peptides »

15h40 – BELARBI Essia (CEA/P. Roques)

« Bio-imaging of alphaviral disease in mice: A new chronic alphavirus infection model using Ross River virus »

16h05 – LEITE PEREIRA Adrien (CEA/A. Cosma)

« Impact of TLR engagement on leukocytes from HIV and healthy human subjects by mass cytometry »

16h30 – TARANU Adéla (KB/C. Verstuyft)

« Pharmacogenetics of OCT1 transporter in the Metadap cohort »

.....

17h00 – Discussion

.....

17h30 – End of the meeting

.....
