

“ImVA PhD students and Postdocs project review and work in progress”

28th September 2018

Salle Bourneville / Faculté de Médecine (3eme étage) / Le Kremlin Bicêtre

.....
08h45 – Welcome

09h15 – **Roger Le Grand**: Introduction
.....

Session 1: Host pathogen relationship in sexually transmitted infections

Moderator: Bruno Vaslin et Christine Bourgeois

09h30 – **LEMAITRE Julien** (CEA/ R. Le Grand et O. Lambotte)

« Role of neutrophils in primary and chronic SIV infection: a phenotypic and functional characterization. »

10h00 – **ADAPEN Cindy** (CEA/ E. Menu)

« Impact of the vaginal microbiota on sexually transmitted infections. »

.....
10h30- 11h00 – Coffee break
.....

Session 2: Local and systemic immune response to vaccines

Moderator: Pauline Maisonnasse et Romain Marlin

11h00 – **JOLY Candie** (CEA/F. Martinon)

« Local and systemic cellular immune response after immunization. »

11h30 – **PALGEN Jean-Louis** (CEA/A S. Beignon)

« Innate responses to vaccine differ at each immunization. »

.....
12h00 – Discussion/Photographie de groupe
.....

12h30 – Lunch
.....

Session 3: Physiopathology of autoimmune diseases and lymphomagenesis

Moderator: Xavier Mariette

13h30 – PAOLETTI Audrey (KB/ X. Mariette)

« A specific defect in M2 polarization of monocytes is specific of Rheumatoid Arthritis and is mediated by increased microRNA-155 expression »

14h00 – NOCTURNE Gaetane (KB/X. Mariette)

« The highest risk of lymphoma observed in BAFF transgenic mice with monoclonal anti-TNF and not with etanercept could be secondary to impairment of macrophages immunosurveillance »

14h30 – RIVIERE Elodie (KB/ X. Mariette)

« Role of salivary gland epithelial cells in primary Sjögren's syndrome pathophysiology and their interaction with B lymphocytes »

Session 4: Characterization of emerging multidrug resistant bacteria

Moderator: Thierry Naas

15h00 – DABOS Laura (KB/T. Naas et B. Iorga)

« OXA-48, a deep insight in its substrate specificity. »

15h30 – JOUSSET Agnès (KB/T. Naas)

« Genomic and transcriptomic analysis of carbapenemase-producing bacteria »

.....
16h00 – Discussion
.....

16h30 – End of the meeting
.....
