

## **Program of presentation of activities and offers platforms of IDMIT/ImVa**

-----  
**Place: Bt 62/IDMIT/Salle D. Dormont  
CEA of Fontenay-aux-Roses**

**3<sup>rd</sup> April 2018**

**The LIMS BATLab: A scalable computing tool for researchers and  
technology platforms**

(Brice Targat: Head of the IT/Bioinformatics team)

**3<sup>rd</sup> May 2018**

**Immunology and Molecular Infectiology**

(Nathalie Bosquet: Head of the L2i Laboratory: Immunology and  
Infectiology)

**5<sup>th</sup> June 2018**

**Optical and nuclear imaging to study human infectious diseases**

(Catherine Chapon: Head of the L3i Laboratory: Imaging of Infection and  
Immunity)

**6<sup>th</sup> September 2018**

**Flow and mass cytometry to explore cellular immune responses**

(Antonio Cosma: Head of the FlowCytech laboratory)

**11<sup>th</sup> October 2018**

**Animal Science in a preclinical context**

(Raphaël Ho Tson Fang: Head of the Laboratory ASW: Animal Sciences and welfare)

**8<sup>th</sup> November 2018**

**Axénis: Services and Activities**

(Nicolas Legrand: Scientific director of Axénis)

**4<sup>th</sup> December 2018**

**Immuno-Monitoring in the clinical context of infectious diseases**

(Christine Bourgeois: Head of the Immuno-monitoring laboratory at KB)

**10<sup>th</sup> January 2019**

**Pharmacokinetics and Pharmacodynamics in the clinical context of infectious diseases**

(Aurélie Barrail-Tran: pharmacokinetics and pharmacodynamics Laboratory at KB)

**7<sup>th</sup> February 2019**

**Oncodesign PharmImmune & CRB: Services and service Activities**

(Pascal Clayette & Mylinda Barendji: Oncodesign within IDMIT)
